EXHIBITOR JUDGING SYSTEMS

FOR FURTHER INFORMATION ON THE RULES & REGULATIONS OF EXHIBITING, SEE THE OFFICIAL WCF
EXHIBITOR RULES & REGULATIONS BOOK.

There are basically two systems of judging that are commonly used in fair judging, the American System and the Danish System. Check with the superintendent or agent in charge before you begin judging to clarify which system you will be using and how many placings you will be required to make.

AMERICAN STYLE JUDGING SYSTEM

In the American System of Judging, each exhibit is judged not only on its own merit, but in comparison to other exhibits using score cards prepared by the IAFE & State Division of Fairs and Expositions, and Fair Management. This system is used throughout all the divisions of the Fair, unless otherwise indicated, for awards and ribbons. Generally a “closed” judging system.

Departments that use this system:

Departments 5-8-9-10-12a&b-13

DANISH STYLE JUDGING SYSTEM

In this system all exhibitors receive a ribbon. All exhibits are grouped according to quality, and there may be multiple entries that get the same ranking and ribbon. Quality may vary from excellent to fair, and ribbon categories may be blue, red, white and/or yellow. In this system of judging, exhibits are not in competition with or compared to each other.

There is no formula to determine the number of ribbons to be given in the Danish System. Quality determines the ranking for blue, red, white and/or yellow ribbon. A blue ribbon is generally recognized and used for excellence. Red ribbons are given for an adequate exhibit that does not meet all the standards. White and/or yellow ribbons are given when the exhibit is below standard quality and improvement is definitely needed. Under the Danish system, participation ribbons are given to recognize the efforts of the exhibitor.

Departments that use this system:

4-H ONLY.

JUDGING SCALE – DANISH SYSTEM

QUALITY		SCORE	RIBBION
1ST	SUPERIOR	92%-100%	BLUE
2ND	GOOD	84%-91%	RED
3RD	AVERAGE	70%-83%	WHITE

Honorable Mention Ribbons will be given at the discretion of the judges.

CONFERENCE JUDGING SYSTEM

In the Conference System of Judging, means that the entire group of exhibitors for a specific lot number meets with the judge, and the judge briefly discusses each exhibit with exhibitors. The judge will place each exhibit comparing it to the standard of perfection and the quality of the other exhibits according to the Danish system.

Departments that use this system:

4-H, Showmanship, some Open Livestock dpts.

FACE TO FACE JUDGING SYSTEM

In the Face to Face System of Judging, means that the exhibitor must be present at the time of judging and talk to the judge about his/her entry. This system is used for the Cloverbud and Exploring departments, and is designed to make the judging experience a positive learning experience for the young exhibitor.

Departments that use this system:

4-H, Showmanship, Open Livestock, Contests

Listed below are some points of interest that influence judges using the score cards as their guidelines:

Appearance

Condition of Work

Color Harmony

Plant Quality

Execution of the Work

Suitability of Materials

Flavor, Texture (Foods)

Accuracy of Design Reproduction

Types of Judging

There are two types of judging commonly used in county fairs and competitive events – open judging and closed judging.

Open judging is an open assessment by the judge before a group about the items in the exhibit. The exhibitors may be present. All exhibitors benefit from the discussion in open judging, although extra care must be taken so that the judge's comments do not embarrass exhibitors or cause unnecessarily hurt feelings.

Closed judging is done in a private area, where only the officials are allowed until the judging is completed. This is usually done when there are a large number of items in the exhibit, and/or when there is not enough room for spectators to listen to open judging. The judging is conducted prior to the opening of the event.

In some judging situations, score sheets are provided for judges to record comments for the exhibitor about the qualities desired and standards used for judging.

Remember, the most important thing is how YOU feel about your project and what you've learned. If you did your best, you can be proud of yourself and the experience you gained!

If you have a question about the judging of your department please ask your superintendent or the Fair secretary.

Animal Health Requirements For Admission to New York State and County Fairs

(Part 351 of NYS Agriculture and Markets Regulations)

NYS Department of Agriculture and Markets/Division of Animal Industry

518-457-3502 | www.agriculture.ny.gov/animals

The 2026 Animal Health Requirements for Admission to New York State and County Fairs, Part 351, or AI-202, now includes BOTH requirements for in-state and out-of-state animals. There will not be a separate document for interstate requirements. Where applicable, sections are clearly marked when requirements apply to in-state or out-of-state animals or both. This is the *only* document to print and refer to for 2026 fair regulations.

Table of Contents

- A. General Prohibitions and Requirements
- B. Certificates of Veterinary Inspection
- C. Animal Identification
- D. Rabies Vaccination
- E. Acceptable Proof of Rabies Vaccination
- F. BVD-PI Testing
- G. Cleaning and Disinfection
- H. Animal Deaths
- I. Calving, Kidding, and Lambing
- J. Commingling of Sheep and Cattle
- K. Commingling of Swine and Poultry
- L. Isolation upon Returning Home
- M. Individual Species Requirements
 - Horses, Cattle, Sheep, Goats, Swine, Llamas and Alpacas, Poultry, Deer/Elk, Miscellaneous Ruminants

A. General Prohibitions and Requirements

- No person shall bring or have present an animal on the fairgrounds for any reason (show, exhibit, raffle, demonstration, display) during a fair which is not qualified under NYS regulations.

- Any animal which is subject to inspection upon entry to the fairgrounds will be inspected without covering (wraps, coats, head gear, etc.).
- No person shall present an interstate or intrastate certificate of veterinary inspection that has been altered by anyone other than the issuing veterinarian.
- Animals demonstrating clinical signs or other evidence of infectious, contagious, or communicable diseases shall not be allowed on the fairgrounds during a fair.
- Representatives of the Commissioner may deny admission to, or require removal from, the fair premises or require the segregation of any animal showing signs of, or exposed to, any infectious, contagious, or communicable disease.
- The fair board of directors has the authority to reject unworthy or unsightly exhibits for reasons other than infectious, contagious, or communicable disease (Part 350.10). The state veterinarian or animal health inspector will bring questionable exhibits to the attention of the fair board.
- All animals presented that originate from a location other than New York shall meet all New York State importation regulations in addition to the fair animal health requirements.

B. Certificates of Veterinary Inspection (CVI)

- The CVI must be issued by a USDA Category 2 accredited veterinarian. Wet ink signatures for paper CVIs or e-signature for eCVIs are accepted.
- An e-CVI may be issued but a paper copy of the e-CVI is required for the animal check-in process so it can be physically initialed and dated by department staff.
- All animals must be officially identified. **All manmade and official ID must be recorded.**
- Only one species is allowed per CVI.

NEW YORK STATE-ORIGIN ANIMALS:

- ✓ A valid intrastate CVI (AI-61) is required for cattle, sheep, goats, swine, llamas, alpacas, deer and miscellaneous ruminants.
- ✓ The CVI must be issued on or after May 1st of the current year.

OUT-OF-STATE ANIMALS:

- ✓ All animals entering New York State must satisfy both import requirements and fair requirements for that species and be accompanied by a valid interstate CVI.
- ✓ The interstate CVI is valid for 30 days from the date of CVI inspection. During the New York fair season (July 1 through Labor Day) valid CVIs can be used multiple times for entrance into a qualifying [NYS Agricultural Fair \(linked here\)](#)

(<https://www.nyfairs.org/>) The initial entrance into a ([qualifying NYS Agricultural Fair](#)) must be within 30 days of the date of CVI inspection. The name of the fair must be recorded on the CVI. For the CVI to be used for a later fair, it must be dated and initialed by a NYS Agriculture and Markets official noting the location of the initial, qualifying NYS Agricultural Fair. A change in health status or eligibility of an animal necessitates the generation of a new CVI.

- ✓ **New York does not participate in the New England Exhibition Show and Fair Circuit.**
- ✓ Questions regarding import requirements should be directed to the Division of Animal Industry at 518-457-3971, or at the division's import/export homepage: <https://agriculture.ny.gov/animals/animal-import-export>

C. Animal Identification

- All manmade and official ID must be recorded. Record full ID tag numbers.
- Do not record ID that is yet to be applied to / within an animal.
- Cattle: All cattle must be identified by an official USDA radio frequency identification (RFID) eartag, commonly referred to as an "840 RFID tag" or equivalent official RFID tag if the animal was tagged in another country.
- Sheep and Goats: All small ruminants must be identified by official scrapie identification.
- Swine: Swine must be identified by an official USDA approved ear tag. Radio frequency identification (RFID) ear tags, commonly referred to as "840 RFID tags," are strongly recommended.
- Equids: A complete written description is sufficient identification for horses entering New York accompanied by a CVI. The description must match the EIA test record. Horse sketches/photos and descriptions should reference color pattern, hair whorls, chestnuts, scars, and other markings as necessary to uniquely identify the horse. Names, tattoos and microchips, if any, are to be recorded. "Bay, no markings" is not an acceptable description for a CVI or EIA test record.
- Llamas and Alpacas: New world camelids must be identified by official ear tag or microchip.
- Miscellaneous Ruminants: They must be identified by unique ear tag or microchip (i.e.: aoudad, antelope, chamois)
- If you are exhibiting animals identified by microchip, a working reader must be supplied by the exhibitor. For questions on animal identification please contact your veterinarian or our office at 518-457-3502.

D. Rabies Vaccination

- Rabies vaccination is required for all species for which there is a USDA licensed vaccine available (cattle, horses, sheep, dog, cat, ferret) **and** that are *4 months of age or older* on the date of admission to the fair.
 - For most rabies vaccines, the earliest age allowable for primary vaccination is 3 months (12 weeks). Animals that are vaccinated prior to 84 days of age will need to be re-vaccinated according to label before entering the fairgrounds.
- Vaccine must have been administered within the past 12 months. The exception is Imrab LA vaccine used in sheep which protects for 3 years after the second annual vaccination (consult your veterinarian).
- The rabies vaccination requirement must be met on the day of admission even if the animal was previously admitted to a fair when too young to vaccinate.
- Individual fairs can require animals for which there is no approved rabies vaccine to be vaccinated for rabies. The requirements outlined above would apply. The fair is responsible for notifying exhibitors.
- The [New York State Fair](#) requires rabies vaccination for all livestock species entering the grounds.

E. Acceptable Proof of Rabies Vaccination

- Acceptable proof of rabies vaccination must include a signed written statement from the veterinarian administering the vaccine to said described animal(s) or a valid certificate of veterinary inspection that has the vaccination listed and is signed by the Category 2 accredited veterinarian.
- **Acceptable proof of rabies vaccination must include the name of the product used, the date of administration, and the duration of immunity if longer than one year (applies to sheep only).**
- If the statement of rabies vaccination is included on a paper EIA test record, the test record must be signed certifying the vaccination in addition to the required signature for the EIA test record.
- If the statement of rabies vaccination is electronically entered into an eEIA test record, only one electronic signature is required.
- Rabies titers are not acceptable proof of rabies protection and cannot be used to meet entry requirements.
- **A veterinary clinic invoice is not sufficient proof of rabies vaccination.**
- Acceptable proof of vaccination for dogs is a valid rabies vaccination certificate or a copy of the dog license that contains the rabies vaccination information.

F. BVD-PI Testing

- All cattle, llamas, and alpacas exhibited at NY county fairs, or the [New York State Fair](#) must be negative to an approved test appropriate to detect **Bovine Viral Diarrhea persistent infection (BVD-PI)**. Official ID must be in the animal prior to sampling. The testing veterinarian is responsible to make sure the proper test is conducted. This is a once in a lifetime test that must be reported on the required certificate of veterinary inspection. The issuing veterinarian is responsible for verifying the validity of the test, existing official identification of the animal, and recording the test date on the CVI. If a previous test or official identification is not verifiable, the test must be repeated.

G. Cleaning and Disinfection

- All buildings on the fairgrounds housing animals must be cleaned and disinfected prior to the opening of the fair and between groups of animals when housing is rotated (Section 50.2 of Agriculture and Market regulations).

H. Animal Deaths

- Occasionally animal deaths occur at a fair. If a death occurs, it must be reported to the state veterinarian in charge as soon as possible for review. The animal must be promptly removed from the public exhibit area to a secure location and held for the veterinarian prior to disposal.

I. Calving, Kidding, and Lambing

- Any cattle, goats, or sheep that calve, kid, or lamb while at a county fair or the State Fair will be **ordered removed from the fairgrounds** along with their offspring, unless the animals are part of a birthing demonstration.

J. Commingling of Sheep and Cattle

- Due to the potential spread of malignant catarrhal fever from sheep to cattle, it is strongly recommended that cattle be kept separate from sheep.

K. Commingling of Swine and Poultry

- Due to the potential spread of influenza virus, it is recommended that swine and poultry be housed in separate locations.

L. Isolation upon Returning Home

- The owner or custodian shall keep show animals biologically separate from the herd or flock for a period of at least two weeks after returning to the premises of origin. If any illness is noted in the exhibition animals, the owner should contact their veterinarian immediately.

M. Individual Species Requirements

- Beginning in 2026, each species has its own entry requirements listed based on if animals originated from within New York or from out of state.

HORSES

NEW YORK STATE-ORIGIN HORSES:

1. No CVI required.
2. Negative Equine Infectious Anemia (EIA) test is required for all horses 6 months of age or older. The sample collection date for the qualifying EIA test must have been on or after January 1, 2025, for New York origin horses. The EIA test certificate must include a complete description and identification of the horse. Horse sketches/photos and descriptions should reference color pattern, hair whorls, chestnuts, scars, and other markings as necessary to uniquely identify the horse. Names, tattoos and microchips, if any, are to be recorded. "Bay, no markings" is not an acceptable description for a CVI or EIA test record.
3. Rabies vaccination is required for all species for which there is a USDA licensed vaccine available (cattle, horses, sheep, dog, cat, ferret) **and** that are *4 months of age or older* on the date of admission to the fair. The name of the fair must be recorded on the CVI. For the CVI to be used for a later fair, it must be dated and initialed by a NYS Agriculture and Markets official noting the location of the initial, qualifying NYS Agricultural Fair. A change in health status or eligibility of an animal necessitates the generation of a new CVI. **New York does not participate in the New England Exhibition Show and Fair Circuit.** Questions regarding import requirements should be directed to the Division of Animal Industry at 518-457-3971, or at the division’s import/export homepage: <https://agriculture.ny.gov/animals/animal-import-export> .

For the CVI to be used for a later fair, it must be dated and initialed by a NYS Agriculture and Markets official noting the location of the initial, qualifying NYS Agricultural Fair. A change in health status or eligibility of an animal necessitates the generation of a new CVI. **We do not participate in the New England Exhibition Show and Fair Circuit.** Questions regarding import requirements should be directed to the Division of Animal Industry at 518-457-3971, or at the division's import/export homepage: <https://agriculture.ny.gov/animals/animal-import-export> .
2. Only one species per Certificate of Veterinary Inspection
3. Animals properly identified per species requirements.
4. Rabies Vaccination - Individual fairs can require animals for which there is no approved rabies vaccine to be vaccinated for rabies. The fair is responsible for notifying exhibitors. The [New York State Fair](#) requires rabies vaccination for all livestock species entering the grounds. IF your (county) fair requires rabies vaccination, please refer to sections E ("Rabies Vaccination ") and F ("Acceptable Proof of Rabies Vaccination").

The Purebred Dairy Cattle Association Show Ring Code of Ethics
(Adopted by PDCA in March 1970; Revised March 1971, February 1977, February 1982,
February 1986, February 1988, and February 1989)

The showing of registered dairy cattle is an important part of the promotion, merchandising and breeding program of many breeders. Additionally, it is an important part of the program of the various dairy breed associations to stimulate and sustain interest in breeding registered dairy cattle. This relates to both spectators and exhibitors. In this connection, The Purebred Dairy Cattle Association believes that it is in the best interest of the breeders of registered dairy cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring. It recognizes that there are certain practices in the proper care and management of dairy cattle which are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy condition so that they might be presented in the show ring in a natural, normal appearance and condition. Conversely, it recognizes certain practices in the cataloging, handling, and presentation of cattle in the show ring which are unacceptable.

The following practices or procedures are considered unacceptable and defined as being fraudulent and/or unethical in the showing of registered dairy cattle:

1. Misrepresenting the age and/or milking status of the animal for the class for which it is shown.
2. Treating the animal, particularly the udder, internally or externally, with an irritant or counter-irritant, or other substance to artificially improve the conformation.
3. Surgery or insertion of foreign material under the skin, performed to change the natural contour or appearance of the animal's body, though not to preclude practices required or involved in normal management.
4. Criticizing or interfering with the judge, show management or other exhibitors while in the show ring, or other conduct detrimental to the breed or the show.
5. Setting Teats.

The following practices and procedures are considered to detract from the image of the show ring when carried to excess and will be given slight to serious discrimination in placing animals within class.

1. Excessive manipulation of the hair.
2. Use of artificial hair except for false switches.
3. Unsportsmanlike conduct on part of showmen.
4. Improper fitting practices such as over filling and over bagging.

Practices which should be encouraged to enhance the image of the show:

1. Establish uniform dress code for exhibitors in the show ring.
2. Recognize good herdsmanship and exhibits in the barn.

In keeping with the basic philosophy of the PDCA, ethics are an individual responsibility of the owner of each animal shown. Violations of these policies are subject to disciplinary provisions of the appropriate dairy breed association and/or show management.

Holstein Show Ring Policy

The showing of Registered Holstein cattle is an important part of the promotion, merchandising and breeding program of many breeders. Additionally, it is an important part of the program of the Holstein Association of America to stimulate and sustain interest in breeding Registered Holstein cattle. This relates to both spectators and exhibitors. In this connection, the Board of Directors of the Holstein Association of America believes that it is in the best interest of the breeders of Registered Holstein cattle to maintain a reputation of integrity and to present a wholesome and progressive image of their cattle in the show ring. It recognizes that there are certain practices in the proper care and management of dairy cattle which are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy condition so that they might be presented in the show ring in a natural, normal appearance and condition. Conversely, it recognizes certain practices in the cataloging, handling, and presentation of cattle in the show ring which are unacceptable.

The following practices are considered unacceptable and defined as being fraudulent and/or unethical in the showing of Registered Holstein cattle:

1. Setting teats or manipulating a teat to alter its normal position such as to unnaturally hold it plumb or to alter its length.
2. Misrepresenting the age and/or milking status of the animal for the class in which it is shown.
3. Treating the animal, particularly the udder, internally or externally, with an irritant or counter-irritant, or other substance to artificially improve the conformation.
4. Surgery or insertion of foreign material under the skin, performed to change the natural contour or appearance of the animal's body, though not to preclude practices required or involved in normal management.
5. Critizing or interfering with the judge, show management or other exhibitors while in the show ring, or other conduct detrimental to the breed or the show.

4. Improper fitting practices such as over filling and over bagging.

Practices which should be encouraged to enhance the image of the show:

1. Establish uniform dress code for exhibitors in the show ring.
2. Recognize good herdsmanship and exhibits in the barn.

In keeping with the basic philosophy of the Association, ethics are an individual responsibility of the owner of each animal shown. Violations of these policies are subject to disciplinary provisions of the Association's By-laws.

Roger E. Dickinson Horticulture Award

Presented annually to a youth exhibitor, 18 & under
Sponsored by the Dickinson Family

Roger E. Dickinson was a well-recognized pillar of the local agricultural community, spending over 40 years attending the Wayne County Fair and lending his expertise as a judge in the Fruit & Vegetable and Horticulture departments in both Open Class and 4-H. A steadfast supporter of youth in agriculture and a beloved fixture of our fairgrounds, Roger is missed deeply — by his family and friends, and by the Wayne County Fair community he helped shape for so many years.

Established in his memory, the Roger E. Dickinson Horticulture Award is presented each year to a young exhibitor, 18 years of age or under, who demonstrates exceptional passion and dedication to the growing of fruits and vegetables. This award recognizes a youth whose love of the land, commitment to their garden, and enthusiasm for horticulture reflect the very spirit Roger championed throughout his life.

Recipients are selected based not only on the quality of their exhibit entries, but on the genuine interest and pride they show in the art and science of growing. Whether tending a backyard garden or a larger agricultural plot, this award honors the next generation of growers who carry forward the agricultural traditions at the heart of our fair.

Eligibility & Award: Open to all youth exhibitors age 18 and under who have entered in Department 5 or Department 8 of the Vegetables & Fruits Division. The recipient will be honored with a commemorative ribbon and engraved plaque. Award is presented at the discretion of division judges and fair leadership. Sponsored by the Dickinson Family.

In Loving Memory of the 2025 Recipient:
Miss Miriam Louise Robbins

WE ARE CELEBRATING 250!

A COAST-TO-COAST CELEBRATION
OF AMERICA'S AGRICULTURAL
HERITAGE.

LAUNCHED AT THE IOWA STATE FAIRGROUNDS ON THE EVE OF INDEPENDENCE DAY 2025, THE GREAT AMERICAN STATE FAIR IS A YEAR-LONG NATIONAL CELEBRATION THAT BRINGS THE OBSERVANCE OF AMERICA'S 250TH BIRTHDAY TO STATE AND COUNTY FAIRS ALL ACROSS THE COUNTRY. THE INITIATIVE WILL CULMINATE IN A MAJOR FESTIVAL ON THE NATIONAL MALL ON JUNE 25, 2026, FEATURING EXHIBITS FROM ALL 50 STATES AND MUCH MORE.

THE 2026 WAYNE COUNTY FAIR IS PROUD TO JOIN FAIRS AND FAIRGROUNDS ACROSS THE NATION IN ANSWERING THE CALL OF THE GREAT AMERICAN STATE FAIR INITIATIVE, BRINGING AMERICA'S 250TH BIRTHDAY CELEBRATION HOME TO WAYNE COUNTY. AS PART OF THIS ONCE-IN-A-GENERATION COMMEMORATION, WE HONOR THE FARMERS, GROWERS, AND AGRICULTURAL FAMILIES WHO HAVE FED, FUELED, AND CLOTHED THIS NATION FOR 250 YEARS. RIGHT HERE IN THE FINGER LAKES, THAT HERITAGE ISN'T HISTORY — IT'S ALIVE IN EVERY LIVESTOCK BARN, EVERY COMPETITION RING, AND EVERY FAMILY THAT SHOWS UP YEAR AFTER YEAR TO CELEBRATE WHAT IT MEANS TO GROW SOMETHING.
